# Cheltenham WWI Photos Online

Fantastic new World War I layer added to the **Know Your Place** website plots the houses of WWI servicemen in Cheltenham. Discover their stories, where they lived and what they looked like. Hundreds of images now available.

The KYP World War 1 layer holds around 1600 entries relating to soldiers serving during the war from the Cheltenham area, linked to their home addresses. Some records also relate to women engaged in war work. Most entries are accompanied by images copied from a contemporary local illustrated newspaper. This collection was created by local historian David Drinkwater and the layer was added to KYP with the help of Gloucestershire Archives volunteers, all members of Cheltenham Local History Society, who carried out additional research to identify precise addresses.
