CHELTENHAM

CHELTENHAM is a fashionable watering place, a municipal and parliamentary borough, market and union town, the head of a petty sessional division and county court district, having bankruptcy jurisdiction; it has a district registry of the High Court of Justice and is the headquarters of the county police. For ecclesiastical purposes it is in the rural deanery and archdeaconry of Cheltenham and diocese of Gloucester. It is 94 miles by road from London, 109 by the Great Western railway via Oxford and 121 via Swindon. The Great Western railway has three stations here, that in St. James' square, which is the principal station, being near the centre of the town, which is 9 miles east-north-east from Gloucester by road and 7½ by rail, 9 south from Tewkesbury, 15 west from Stow-on-the-Wold, 13 north-east from Stroud by road and 19 by rail, and 22 south from Worcester. The London, Midland & Scottish Railway Company has a passenger station here, in the Queen's road (Lansdown), about 1½ miles from the centre of High street, and a goods station in the Tewkesbury road, about half a mile from the former. The Banbury and Cheltenham Direct railway, via Kington, completed in 1886, is about 48 miles in length; it connects two of the principal sections of the Great Western railway and unites London and the Midland, Northern and Eastern counties by a shorter and more direct route from Cheltenham and the West of England. The Cheltenham and Honeybourne branch, opened in 1906, is about 21 miles in length, and connects Cheltenham and South Wales with Birmingham and Wolverhampton. The Cheltenham station on this line, called Malvern Road, was opened in 1908, and is one

minute's train run and about half a mile by road from St. James' station. The Great Western railway affords direct communication with the South Western counties, via Andoversford and Cirencester. There is also a Race Course station which is open on race days only.

The Cheltenham and District Light Railway, completed in 1901 by a company, is on the overhead electric trolley system, and runs from Gloucester road (near the Lansdown station of the London, Midland and Scottish railway) to Cleeve Hill, Prestbury, Southam, Charlton Kings and Leckhampton, passing through some of the chief thoroughfares of the town.

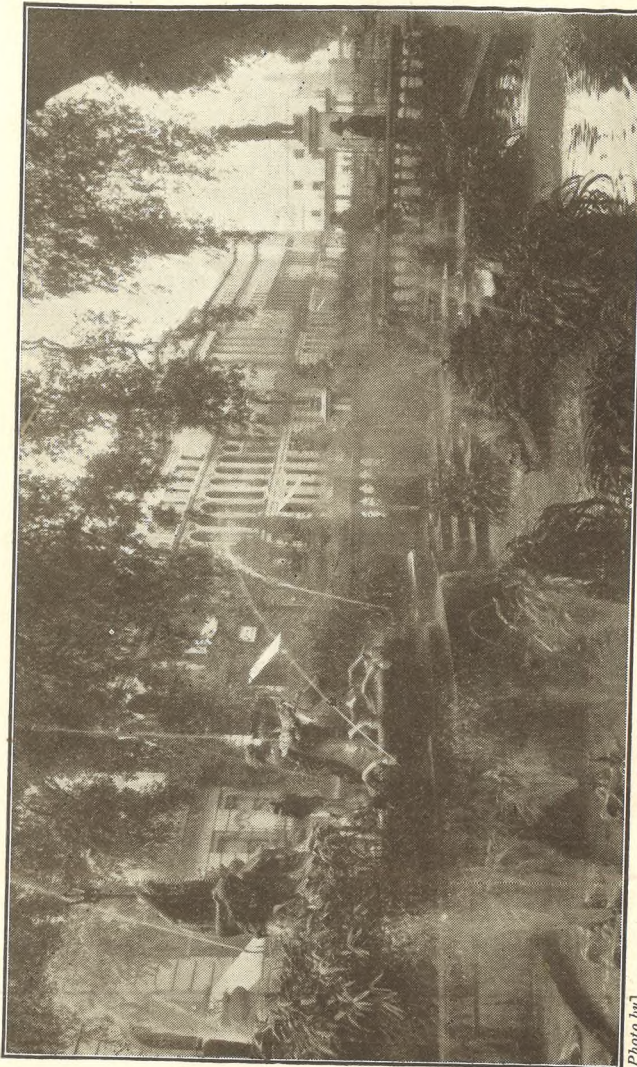

The town was unrepresented until the passing of the Reform Act, 1832 (2 and 3 Wm. IV. c. 45), under which enactment it became entitled to one member; under the Boundary Act, 1868, a portion of the parish of Leckhampton was included in the parliamentary borough, and by the Redistribution of Seats Act, 1885 (48 and 49 Vict. c. 23), so much of the parish of Charlton Kings as lies to the north of the Cheltenham and Banbury railway was added. The borough was again extended, Nov. 9, 1893, by further additions from the parishes of Leckhampton and Charlton Kings. Under the Representation of the People Act, 1918, Cheltenham still returns one member. Until 1876 the town was governed by thirty commissioners appointed under the Cheltenham Improvement Act, 1852; but under the Royal Charter of Incorporation, obtained in September, 1876, the borough has now a corporation, consisting of a mayor, deputy mayor, six aldermen and 18 councillors; the municipal borough is divided into six wards, and is co-extensive with the parish.

The town derives its name from the small river Chelt, which rises at Dowdeswell in the vicinity, and, in its course to the Severn, runs through the town, which is beautifully situated on an extensive plain, sheltered on the north and east by the Cotswold Hills, and consists of numerous fine streets, the principal of

which, High street, is more than $1\frac{1}{2}$ miles in length, and contains many handsome modern buildings, interspersed with houses of more ancient date. The streets and buildings are spacious and elegant, and the Promenade, leading from the High street to Montpellier, is the most fashionable thoroughfare in the town; it extends for more than a quarter of a mile in a straight line and has a splendid avenue of fine spreading trees, with shops and terraces on either side. A pleasing feature of the town is the number of trees lining the thoroughfares, there being no less than 16 miles of tree-planted roads and streets in the borough, which is called the "Garden Town." The waterworks for the supply of water for domestic purposes, situated on the slopes of the Cotswolds, in the Dowdeswell valley, afford upwards of 1,000,000 gallons a day, and in addition a supply of unlimited quantity and high quality is obtained from the Severn at Tewkesbury. The town is lighted by electricity from works, erected in 1894, in the Arle road, the property of the corporation. Gas is supplied by a company established in 1819, from works in the Gloucester road. Extensive schemes of street improvements have been carried out in recent years by the corporation, who own the Pittville Spa and Gardens, and the Montpellier Spa, gardens, mineral wells and baths.

In 1913-16 extensive works were constructed for the disposal of the town sewage by filtration, at a cost of upwards of £40,000; the works are capable of treating 1,000,000 gallons daily, dry weather flow; new filters were added in 1926 at a cost of £15,000.

Pittville park, formally opened 25 April, 1894, includes the Pittville gardens and a lake, rowing course and recreation ground at Marle hill; the property comprises 15 acres, purchased at a cost of £2,354, but the total outlay, including excavation, bridges, boat-house and boats, was about £6,000; the length of the lake is 1,650 feet, and of the boating course 4,400 feet; the maximum width is 455 feet, and there is a total water area of $2\frac{1}{2}$ acres; the boat-house is of wood, in

the style of a Swiss chalet : on the south side of the lake is an island, and at another point a waterfall, and there is now a numerous flock of water-fowl, and the lake has also been stocked with fish ; the park is agreeably diversified with clumps of trees, evergreens and flowering shrubs, and has been profusely planted with hardy flowers so as to make it a wild garden on an extensive scale.

The fountain on the Promenade, inaugurated on Monday, Oct. 30, 1893, is a graceful work in the Italian style, and includes a group in Portland stone, representing Neptune drawn by sea-horses.

The South African War Memorial, also on the Promenade, was unveiled in 1907 and includes the figure of a soldier in bronze.

In 1914 a statue in bronze, sculptured by Lady Scott, was unveiled on the Promenade as a memorial to the late Edward Adrian Wilson B.A., M.B., F.Z.S. born in Cheltenham 1872, chief of the scientific staff, artist and zoologist of the British Antarctic Expedition, 1910-1913. He reached the South Pole January 17, 1912, and died with Capt. Scott on the great ice barrier, March, 1912.

In 1914 a stone statue of King Edward VII. surmounting a drinking fountain, was erected at Montpellier, given by the late Alderman J. W. Drew and Mrs. Drew.

A massive obelisk on a base of three steps was erected in 1920-21, opposite the municipal offices, as a memorial to the 1,266 men from Cheltenham who fell in the Great War, 1914-18 : the cost of erection, about £1,800, was raised by public subscription : the unveiling ceremony was performed by Maj.-Gen. Sir Robert Fanshawe K.C.B., D.S.O. on October 1st, 1921.

Naunton Park, situated to the south-east of the town, and opened in 1894, comprises about 8 acres and is laid

out as a recreation ground. There is also a recreation ground in Whaddon road.

Cheltenham has acquired its present important position from the celebrity of the mineral springs with which its soil is so abundantly charged : the waters, which are more or less saline, were accidentally discovered in the year 1716, and their medicinal virtues gradually becoming known, his Majesty George III. visited the place in 1788, an event which at once led to the establishment of the spas : the original Old Wells were established about 1738, Montpellier spa in 1818, and the Pittville spa, with its gardens and lake, in 1830.

The latter was purchased by the corporation in 1889 and has saline springs surrounded by beautiful gardens and grounds, with walks and drives planted with trees six miles in extent. The gardens were enlarged in 1901 by the corporation to the extent of $3\frac{1}{2}$ acres ; and new recreation grounds close by were presented to the town in 1888 by J. T. Agg-Gardner esq. M.P. for the borough (ktd. 1916). The Pump room occupies an elevated position in the principal garden, and is a substantial building in the Grecian style, in imitation of a temple at Athens, designed by the late Mr. Forbes, architect ; it is 92 feet long by 43 feet, surrounded by a colonnade 13 feet wide, the roof of which is supported by fluted columns 22 feet high. Upon the façade stand three figures representing Æsculapius, Hygeia and Hippocrates. The main building is roofed with a splendid dome 70 feet high, round the interior of which is a spacious gallery, while outside is a protected gallery from which magnificent views of the gardens and lake and of the town and neighbourhood are obtained. The cost of laying out this estate is said to have amounted to nearly half a million sterling.

The wells of the Pittville Spa are three in number, all characterised by containing relatively large quantities of carbonic acid, partially combined and free. In 1847 an analysis was made by Messrs. Abel and Rowney upon water drawn from the main well, 90 feet deep, and

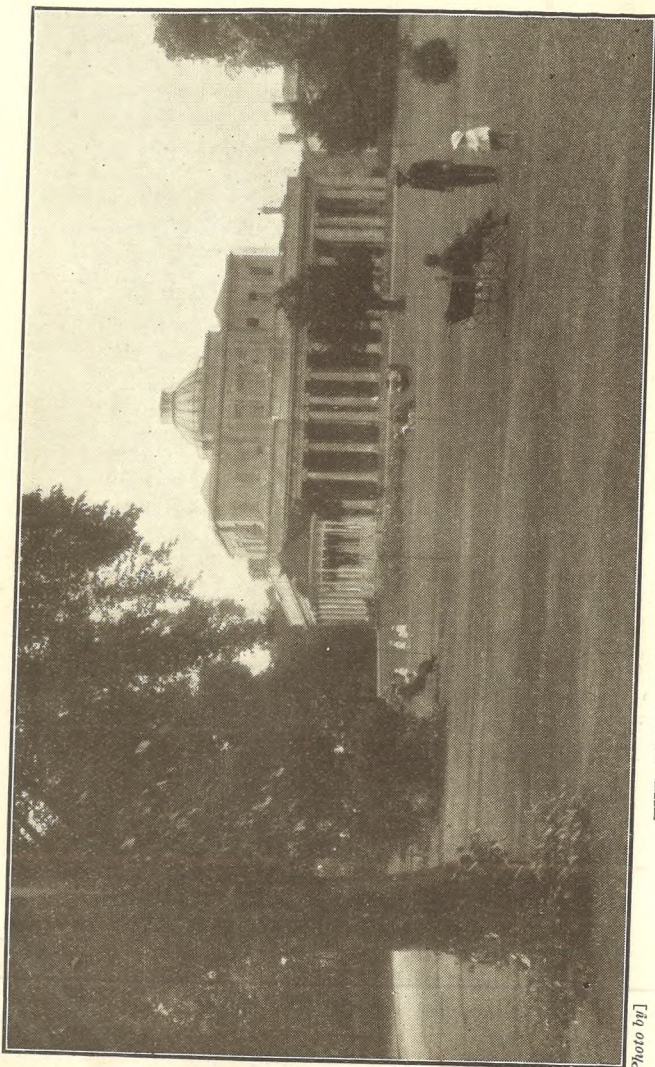

situated under the pump room, and a comparison of this analysis with that made by Professor T. E. Thorpe, of the Royal College of Science, South Kensington, in 1893, upon water taken from the Pittville wells, Nos. 1 and 3, shows that the waters experienced no sensible alteration in composition during 50 years. The following statement of the amounts of the principal constituents, expressed to the nearest grain per gallon, as deduced from the two analyses, brings out this result very clearly :

	Abel & Rowney, 1847. Grains per Gallon.	Prof. T. E. Thorpe, 1893. Pittville 1 & 3. Grains per Gallon.
Sodium Chloride	481	484
Sodium Sulphate.....	113	106
Sodium Bicarbonate	32	34
Potassium Sulphate	3	4
Calcium Carbonate	8	9
Magnesium Carbonate	11	12

Pittville well No. 2 Professor Thorpe finds to be less rich in saline constituents than Nos. 1 and 3, and, though bearing a general resemblance to these, it has a relatively larger content of sodium sulphate, viz. 148 grains per gallon, and a proportionately lower amount of sodium chloride, viz. about 311 grains per gallon. He further states that Pittville well No. 1 contains about 662 grains per gallon of saline matter, and No. 2 about 644 grains, by far the largest constituent in each case being common salt ; both contain notable quantities of bromides and iodides, but the amount of lithia in either is so minute that it can only be detected by the spectroscope : these wells also contain a certain proportion of ferrous carbonate, but not sufficient, in his opinion, to allow them to be regarded as chalybeate. Professor Thorpe also reported to the Town Council on the Chadnor Villa well, the Cottage well in Christ Church road, and the Lansdown well. The water of the first two of these is magnesia saline ; the Chadnor Villa well contains per gallon about 313 grains of saline matter, 118 grains being magnesium sulphate (Epsom salts), and 61 grains sodium sulphate (Glauber's salts) ; of sodium chloride and of bromides and iodides there is very little, and only minute

quantities of ferrous carbonate and lithia. The Cottage well is reported to contain about 390 grains of saline matter per gallon, about one-third consisting of Epsom salts, and rather more than a quarter Glauber's salts, together with gypsum, chalk and common salt ; only minute quantities could be traced of ferrous carbonate and lithium, and bromides and iodides were found to be altogether absent. Of the Lansdown well, the Professor says that it contains about 625 grains per gallon of saline matter, more than half being common salt and about a quarter Glauber's salts ; the amount of iron, lithia, and of bromides and iodides was exceedingly small. From these results, it clearly appears that none of the Cheltenham springs can be regarded as chalybeate.

The parish church of St. Mary is a cruciform building of stone, in the Early English, Decorated and Perpendicular styles, consisting of chancel, clerestoried nave, aisles, transepts, north porch and a central tower with octagonal spire, containing a clock and a fine peal of 12 bells : in 1912 the spire was restored and the bells rehung at a cost of £1,200, when two new bells were given by Alderman Winterbotham J.P. : on the east side of the north transept is a handsome circular window 45 feet in circumference, divided by radiating mullions into 33 compartments : the original canopied piscina, considered one of the largest and most perfect of its kind in England, is of Decorated character, and forms a square recess, flanked by buttresses, with an arch on the east and north sides : in the chancel are brasses with effigies to Sir William Greville kt. Justice of the Common Pleas, 1513, his wife, three sons and eight daughters : there is also a mural monument to the wife of John English D.D. 1643, and a tablet to various members of the De la Bere family, 1783-1810 : in the chancel is a monument of alabaster and marble to the Rev. Edward Walker D.C.L. perpetual curate from 1857, and first rector of this church, who died in 1872, and there is also a large and fine brass to the Very Rev. Francis Close D.D. rector here, 1826-56, and dean of Carlisle, 1856-82. The stained east window was erected

H. Gwinnett esq. J.P. in memory of his parents : the south transept retains a piscina and aumbry : in the churchyard are two stone coffins. The church was restored in 1877 under the direction of the late Mr. Ewan Christian, of Whitehall place, and reseated in 1878 at a cost of £4,700 : the vestry to the north of the chancel and a porch to the south aisle were added in 1893 : an oak reredos was erected in 1917 in memory of Alderman W. Nash Skillicorne, formerly mayor of Cheltenham and churchwarden of the parish church : there are 670 sittings. The register commences with the year 1558. The living is a rectory, with St. Matthew's annexed, net yearly value £879, without residence ; it is in the gift of Simeon's trustees, and has been held since 1916 by the Rev. Henry Albert Wilson M.A. of Corpus Christi College, Cambridge, hon. canon of Gloucester and rural dean of Cheltenham : the endowment is £150 yearly, and the remaining income arises from fees, Easter offerings and the pew rents of St. Matthew's.

St. Matthew's church, in Clarence street, a chapel of ease to the parish church, erected in 1878-9, from designs by Mr. Ewan Christian, architect, at a cost of about £25,000, and consecrated by the bishop of the diocese April 17th, 1879, is an edifice of local stone, with Bath stone dressings, in the Gothic style of the 13th century, consisting of apsidal chancel with aisles, clerestoried nave, aisles, transepts, north porch and a tower with spire at the north-west angle : the reredos is panelled and adorned with marble and mosaic work, with the Tables of Commandments in lead letters : the pulpit is of stone, with alabaster and marble mosaic inlays, bordered with boldly carved foliage : the font, of Caen stone, was the gift of J. B. Richmond R.A., F.S.A. and J. Eadie-Reid: a reredos has also been erected and the walls lined with jasper and marble from designs by Mr. H. A. Prothero, architect, of Cheltenham: in 1922 a bronze tablet, erected just inside the main entrance to the church by public subscription, was unveiled by Lt.-Gen. M. W. Willoughby C.S.I. in memory of the men of the parish and the men of the 10th Batt. Gloucestershire Regiment who fell in the Great War, 1914-18: the church was restored internally in 1887-97, at a cost of £8,000, and redecorated in 1925, and affords about 1,600 sittings. By the Redistribution of Seats Act, 1885, so much of the parish as lies to the north of the railway from Cheltenham to Banbury was included within the extended parliamentary borough of Cheltenham: a further portion was included in the borough from November 9th, 1893, and the parish is now wholly within the parliamentary and municipal borough of Cheltenham. The water supply is from Cheltenham. The river Chelt, which rises in the adjoining parish of Dowdeswell, runs through this parish. The parish adopted the Local Government Act, December 31st, 1861, and was governed by a Local Board from 1875, but under the provisions of the Act of 1894, it is now controlled by an Urban District Council of 12 members. The Leckhampton Quarries Co. Ltd. commenced to cut a new private railway from their pits to the railway station on October 11th, 1922. The church of St. Mary is a building of stone in the Perpendicular style, consisting of chancel, nave, aisles, transepts, south porch and an embattled central tower, with pinnacles, containing a clock and 8 bells; in the south transept is a piscina, and in the chancel a brass to Samuel Cooper, d. 1743: there are memorials to the Prinn and Russell families from 1771 to 1888, and to John Pates, ob. 1646; in 1894 a memorial window was erected by his family to the Rev. James Frederick Secretan Gabb M.A. vicar here 1834-76: in 1901 a reredos of marble and alabaster was erected: it represents the Ascension of our Lord, with the Annunciation and Burial on either side, flanked by figures of the four Evangelists; the work was executed by Mr. W. H. Fry, sculptor, who resides in the parish: a rood with moulded oak beam, mounted on corbels from the arch, was added in 1920 as a memorial to 116 men connected with the parish who fell in the Great War, 1914-18; the names of the men are inscribed on a polished slab of stone on the east wall of the nave: an organ has also been provided at a cost of £800: the church was enlarged and repaired in 1877 at a cost of £3,500, and in 1878 the chancel was rebuilt at the expense of Sir F. D. Dixon-Hartland bart. Mrs. Bold, Mrs. Banks and Mrs. Coulson: in September, 1917,

the vestry was extended in memory of Herbert Cathorne Creek and Percy Garratt Shewell, and a stained glass window by W. Morris and Co. of London, inserted, the cost being borne by Mrs. Percy Shewell: electric light was installed in 1922 in memory of W. H. Bagnall esq. by his widow and family: there are 600 sittings: in the churchyard are the remains of a fourteenth-century cross, which was restored to its original form in 1912: there is a lychgate at the western entrance, presented in 1920 by R. W. Boulton esq. in memory of his father and nephew, and as a thankoffering for peace after the Great War, 1914-18. The register dates from the year 1538. The living is a perpetual curacy, net yearly value £350; it is in the gift of the Bishop of Gloucester, and has been held since 1906 by the Rev. Edgar Neale M.A. of Worcester College, Oxford. The ecclesiastical parish of the Holy Apostles was formed September 22nd, 1885: the church, erected in the year 1871, at the expense of Charles Cook Higgs esq. of Langton House, in this parish, and consecrated June 2nd, 1885, is an edifice in the Geometrical Decorated style, from designs by Mr. John H. Middleton F.R.I.B.A., of Cheltenham, and consists of apsidal chancel with aisles, clerestoried nave, aisles, north and south porches and a turret containing one bell: the pulpit and the whole of the seats are of oak, the chancel stalls being carved: the reredos, of Caen stone, alabaster and marble, is divided into three compartments, the centre one being occupied by a carving of "The Last Supper": the stained west window was the gift of Thomas Potter esq. of Eastcourt, Charlton Kings, and his family; and there are two memorial windows, erected in 1893, to C. Rogers esq. and his wife, by their children, and seven other stained windows: there are memorial tablets in the church to the 44 men of the parish who fell in the Great War, 1914-1918; to Capt. Kenneth Forbes-Robertson, killed in action November 7th, 1914, and to 2nd Lieut. Frances Claude Uzzell, killed in action February 1st, 1918: in 1892 the font was removed to the west end and the organ transferred to the chancel at a cost of about £350: an oak screen enclosing the choir vestry was

erected in 1893 at a cost of about £170: the church will seat about 650 persons. The register dates from the year 1885. The living is a perpetual curacy, net yearly value £459; it is in the gift of the Bishop of Gloucester, and has been held since 1919 by the Rev. Alfred Henry Rhodes M.A. of Christ Church, Oxford. The church hall, built on glebe land adjoining the church at a cost of £3,000, was opened in 1924: it will seat 400 people. There is a Primitive Methodist chapel in Ryeworth road, built in 1874, and a Baptist chapel in Church street, built in 1875. A cross of Monks Park stone, with a base of Cotswold stone, was erected in 1920 as a memorial to the men connected with Charlton Kings who fell in the Great War, 1914-18; the memorial is 18 feet in height, and the cost of erection was borne by public subscription. The local charities afford £135 yearly for educational purposes, apprenticing and distribution, derived from lands in this parish left in 1743 by Samuel Cooper. C. C. Higgs esq. by deed executed and duly enrolled about 1850, vested in trustees a building which he had erected at East End Hall, in this parish, for a night school, together with an adjoining field of about 8 acres, for the support of a school, and for the purchase of prizes for deserving scholars. Charlton Kings Club and Institute, erected in 1888-9 at a cost of £1,434, is a structure of red brick, and contains an assembly room, seating 400 persons, as well as game and recreation rooms, a refreshment bar and three billiard tables; it has a sports field at the Beeches. Charlton Park is now (1927) unoccupied. Ashley Manor, the seat of Lady Dixon-Hartland, is celebrated as having the largest oaks in the county in its grounds, some of these being of great age. Near Battledown Knoll are some remains of a Roman camp. J. C. Holder esq. Lady Dixon-Hartland, the Lilly Brook Hotel Co. Ltd. the Leckhampton Quarries Co. Ltd. the Gloucestershire Dairy Co. Ltd. and Albert and Arthur Mitchell esqrs. are the principal landowners. The Leckhampton Quarries Co. Ltd. have a quarry here. YOUR FOOTWEAR.

What are the chief things to look for in a pair of Shoes, whether for Adults or Children ?

COMFORT AND COSY FITTING—This is most important because it is essential for your health and well-being.

STYLE ESSENTIAL—A neatly shod foot is the hall mark of the well dressed.

VALUE FOR MONEY—We buy direct from the leading makers and save you money.

DURABILITY—This is a special point that we study and give you the best possible quality at the lowest price.

These are just a few of the many reasons why you should give us a trial with your next pair. We guarantee satisfaction.

CHELTENHAM.**

"Cheltenham can boast an establishment unique in its way, and many people go from London—and indeed all parts of England—to seek professional assistance unapproached by that to be obtained elsewhere. Mr. Ventris-Field, who has made such a great name for himself as a Specialist for Diseases and Deformities of the Foot and Leg, is a relative of the late Lord Field—Judge of the (then) Queen's Bench Division of the High Courts of Justice, from 1875 to 1890. Mr. Ventris-Field has been in practice over thirty years at 6 Rodney Place, Cheltenham, and has contributed many important medical articles to the scientific Press."—"Looker-On."
