MR. ARTHUR MEEZE, OF PAINSWICK.

The many readers of the "Cheltenham Chronicle and Gloucestershire Graphic" will be rejoiced to hear that Mr. Arthur G. Meeze, of Painswick, who has lately passed through a severe attack of pneumonia and pleurisy, is well on the way to full recovery. Mr. Meeze has been a frequent contributor of interesting articles and tasteful poems to this paper. His prose writings are eminent for a clear, terse, and vigorous style, and his poems for their graceful construction and

delicate imagery. Mr. Meeze has for some time been very hard at work on his great book, which may aptly be termed a thirty years' labour of love. He has named this work "A Pansophic and Telosophical Pan-tacle: A New and Constructive Interpretation of Experience, or Microcosmic Key to the Macrocosm." The great feature of the work, which is not a "system" in the usual acceptance, is the application of the "Dia-

lectic Movement" to "Experience in Immediacy," in which it differs from the Hegelian School, who apply the "Dialectic Movement" to thought-made premises. Mr. Meeze had been unremittingly labouring at his book, and perhaps had not allowed himself sufficient rest. There is no doubt that this impaired his health and prepared the way for the serious disease from which he is so happily recovering.

HOW FAR THE BLOOD TRAVELS.

The mileage of the blood circulation reveals some astonishing facts. It has been calculated, for instance, that assuming the heart to beat sixty-nine times a minute at ordinary pressure, the blood goes at the rate of two hundred and seven yards in a minute, or nine miles an hour, two hundred and twenty miles a day, and eighty thousand miles a year. If a man eighty-four years old could have had one single blood corpuscle floating in his blood all his life, it would have travelled in that time nearly seven million miles.

MRS.—BY CHOICE.

A little foible of womankind was disclosed by Mr. Parker, the assistant town clerk, at the Revision Court in St. George's-in-the-East on Saturday.

"How do you address women on the register with whom you have to communicate?" the Revising Barrister asked.

"I address them all as 'Mrs.'" Mr. Parker answered.

Indiscriminately?—Yes. What if the ladies turn out to be spinsters?—There's no damage done. They are never offended.

"But," Mr. Parker added, "if I made an attempt to discriminate, and by accident addressed a 'Mrs.' as 'Miss,' the 'Mrs.' would warmly resent it."
