IF YOUR SIGHT SHOULD FAIL

what would happen to you? Would you not be ruined for life? Your entire earning capacity would be gone, the enjoyment of the beauties of nature, art, literature, music, etc., would cease as far as sight is concerned. If your eyes are not seeing things as distinctly as they should do, if they ache or show other signs of weakness, have them scientifically tested at once. Delay is dangerous. Let us test your sight. Correct glasses strengthen and preserve your eyes. If glasses will not suit your case we tell you so.—Waite and Son, Opticians, 349 High-street, Cheltenham.
