 This, the largest and most important Reliability Trial for solo motor-cycles, side-car machines, and small cars in England, was held over the usual district on the Cotswolds on Saturday last, starting and finishing at Stratford-on-Avon. Two of the bad hills mentioned are near Cheltenham—Mill Lane and over part of Cleeve Hill; and Manor Hill from Gotherington to Bushcombe, the latter a new and very difficult proposition. Two Cheltonians, Messrs. Jack Williams on a Rudge solo and George Stannard on a Triumph and sidecar, had very successful runs.

A RECORD OF RURAL BEAUTY.

The beauty of the Cotswold homes lies in their simplicity and sturdy sufficiency, and probably no domestic architecture throughout the world vies with these lovely old solid stone houses in their dignity, comfort, and suitability to their surroundings. In our fine book, "Picturesque Gloucestershire," which is expected to be soon out of print, over 700 illustrations of the houses in this neighbourhood and scattered over the Cotswold district are illustrated. The book is printed on fine art paper, and well bound: there are no advertisements, and a finer gift for an absent friend or to lay on your own table for constant reference, could hardly be imagined. The price is one guinea. Call at our offices and inspect a copy.

**PICTURESQUE GLOUCESTERSHIRE—COMPTON ABDALE.**

Compton Abdale is a delightfully secluded little village, most picturesquely situated on the sides of a little valley, about a mile to the south of the Cheltenham-Northleach road. It is three miles from Andoversford and two from Withington. A beautiful spring arises in the centre of the village, known as the Crocodile—the stream of pure water flowing out of a carved stone crocodile's jaws, and forming the source of a tributary of the Coln.

- 1.—The Church of St. Oswald, a most interesting little place. The churchyard is in a neglected condition, and the church is kept locked. The pinnacles on the tower are four carved dogs sitting up, and the gargoyles are quaint and well preserved.
- 2.—The view from the churchyard, which is high above the village.
- 3.—Looking down the village from the green, showing entrance to churchyard, War Memorial, and old houses.
- 4.—Lower Farm, a fine old Cotswold homestead, with fine old farm buildings.

#### THE "HILLMAN" FLEET.

It is not often that the prospective car purchaser is able to view a complete range of any one make of Car under one roof, but this opportunity occurred last week when H. E. STEEL (HIMSELF) at the Queen's Garage, Promenade, Cheltenham, arranged a show of six HILLMAN "Straight Eight" and three "Fourteen" models. It is particularly interesting at the present moment to know that these "Straight Eights" are fitted with exactly the same type of chassis as the HILLMAN STRAIGHT EIGHT in which the Hon. Mrs. Victor Bruce covered 2,150 miles in 91 hours from Lapland to the Riviera in the Monte Carlo Rally. A more exacting test of reliability could hardly be conceived. The Fleet also contained the "Segrave" model, a fabric Sports Saloon designed by Sir Henry Segrave for his own use, and it is an interesting fact that Captain Irving, who designed Sir Henry's "Golden Arrow" is now the Hillman technical adviser.

Further pictures of Compton Abdale, of which village we published a series in last week's issue. The village has gained some notoriety by the neglect of the church by the parishioners—the Vicar and his wife being the only people who attend the services held alternately on mornings and afternoons on Sundays. Compton Casey is a fine gentleman's house about three miles away, now turned into a farmhouse.

- 5.—The War Memorial, Church Tower in distance, with walk to churchyard, and the beautiful little spring of water which runs from the crocodile's mouth.
- 6.—The crocodile. This lovely spring gushes out through the stone jaws of a crocodile into a big stone trough, and thence forms a tributary of the Colne.
- 7.—A picturesquely-situated cottage.
- 8.—The old entrance to Compton Casey is flanked by two fine stone pillars with carved stone vases. This is one of them. They are about 12ft. high.

**CHELTENHAM FOOTBALLER'S WEDDING.**

Just over an hour before taking part in the Town v. College match on Saturday last, Mr. George Davies, Cheltenham's popular fly-half, was married at St. John's Church, Cheltenham, to Miss Phyllis Muriel Everett. The bridesmaid was Miss Kathleen Everett, sister of the bride, and the best man was Mr. Horace Davies, brother of the bridegroom. The bridegroom is a native of Aberavon, and the bride has been an employee at the Ucal Works for the past nine years.

All sections of the community were represented in the large congregation that assembled at Highbury Congregational Church on Thursday, February 13th, for the funeral service of one who had been intimately connected with the church for over 50 years; and the packed church spoke eloquently of the respect and esteem in which he was held in Cheltenham, and in the public services of the town and county.

**A WONDERFUL LOCAL SOCIETY.**

The Cheltenham and Gloucester Building Society, whose annual meeting was held on Wednesday last, increases from strength to strength. The figures presented were remarkable, not only as showing the immense and increasing business done, but as testifying to the great care the directors have shown in building up a wonderful reserve fund. This now amounts to £357,289, and is equal to 10½ per cent. upon the total liabilities to shareholders and depositors, and ensures the absolute safety of their investments. There is only one other Building Society in England as large as, or larger than, our own, which can show a reserve fund of so high a percentage to its liabilities. Shareholders evidently appreciate this safety, as their accounts increased during the year by £278,238, making a grand total of £2,714,786; and Depositors' accounts increased by £52,040, making a total of £677,369. The Directors are commemorating their 80th year of existence by increasing the dividend on "E" (fully paid) Shares by a bonus of 10/- per cent., making it now 5 per cent. free of income tax. THE SOCIETY HAS AMPLE FUNDS AVAILABLE FOR ADVANCES ON SUITABLE PROPERTIES, AT REASONABLE RATES, AND THE COST OF PREPARATION OF THE MORTGAGE DEED IS PAID BY THE SOCIETY.
