3 REASONS
Why
WHYSONS

YOU SHOULD CHOOSE A NEW HILLMAN

'14'

1 THE NEW HILLMAN "14" fulfils the ideal of an economical family car — comparatively inexpensive to buy and to run, yet with more fine engineering features and lavish equipment than any other car in its class.

2 THE NEW HILLMAN "14" engine is a four-cylinder type for reliability, easy maintenance, smoothness, and economy, with maximum power output of 51 B.H.P. The latest "Triplex Cushion Power" engine mounting eliminates vibration at all speeds.

3 THE NEW HILLMAN "14" is the safest car you can drive. Even-keel suspension provides a margin of safety over all roads: the body is one-piece pressed steel with Monopiece Safety Roof; brakes are the latest Bendix Cowdrey design and the wide vision wind-screen given complete freedom from "blind spots."
