The "AGA" Cooker

# SPEED UP THE BREAKFAST . .

A recent Cookery Research, carried out by the staff of the Good Housekeeping Institute, under the supervision of the Director has proved that:

1. Breakfast is 30 per cent faster by **GAS** than by any other means.
2. Where **GAS** takes 5 minutes to Boil Water, the next quickest Fuel takes 8 minutes.

In a word the use of **GAS** means punctual Breakfasts—no grumbles—no delays.  
Gas Cookers give the speediest service and Speed is what is wanted in preparing most meals—breakfast in particular.

To whom it may concern—It gives me great pleasure to testify to the fact that Mr. S. G. Godwin has done most of my Furniture Removing for the past 30 years in a most capable manner. During this period I have had no complaint to make for punctuality, breakages, losses, or over-charging. This, I think, speaks for itself as to the highest efficiency of the work.
