CHIMNEY FIRES

First of all call the Fire Brigade. Then damp down the fire by throwing on a few handfuls of salt (DON'T USE WATER). Pull away from the fireside, rugs, carpets, furniture and anything else likely to be set alight by falling soot.

Eliminate draught by closing doors and windows.

Watch that sparks from the chimney don't set fire to anything outside.

If it is a minor fire it should burn itself out fairly quickly, but the Fire Brigade will make sure that it's properly out.

Chimney fires can be prevented by having your chimney swept at least once a year — even more if you are burning a lot of wood or peat. If you do burn wood, make sure that it is quite dry and let it burn lightly. A lot of smoke makes a lot of soot and this is what catches fire.

You can find the name, address and telephone number of a Sweep by looking under the relevant heading in your TRADEFINDER.
