## Fire Prevention

1. Have your chimney swept at least once a year.
2. Never leave a room without putting a guard in front of a fire, particularly where fires are left in all night.
3. Keep matches out of reach of children
4. Make sure that the air can circulate around a light bulb.
5. Paraffin heaters should be secured to a floor or wall so that they cannot be knocked over. They should have KITE mark for safety. It is very important to follow the manufacturers' instructions for cleaning and upkeep of an appliance.
6. When buying any new appliance, you should first read the manufacturers' instructions carefully.
7. Long flexes are dangerous — they are easily tripped over.
8. Don't hang clothes to dry over convector heaters — the air vent must always be kept clear.
9. Make sure that things are not left in front of fires that work on a time switch
10. Don't use too many adaptors on one plug. There is a danger you will overload the circuit.
11. If the same fuse blows twice, get an electrician in. You will find the name, address and telephone number of an Electrician under the relevant heading in your TRADE-FINDER.
12. Avoid having your cooker near the window where curtains could blow across the hot plates. This is dangerous.
13. All children's nightclothes must be non-inflammable. If you are making them yourself, check that the material is non-inflammable before you buy it.

## METRIC MEASURES

### Comparative Ounce—Grams

We hope that this reckoner  
will help you with your  
calculations in converting  
ounces to grams.

Grams are to the nearest  
whole figure:

1 Kilogram = 2.2 lb.

#### Ounces into grams

1 oz.	= 28 grams
2 oz.	= 57 grams
3 oz.	= 85 grams
3½ oz.	= 100 grams
4 oz.	= 113 grams
5 oz.	= 142 grams
6 oz.	= 170 grams
7 oz.	= 198 grams
8 oz.	= 227 grams
8½ oz.	= 250 grams
9 oz.	= 255 grams
10 oz.	= 284 grams
11 oz.	= 312 grams
12 oz.	= 340 grams
13 oz.	= 369 grams
14 oz.	= 397 grams
15 oz.	= 425 grams
16 oz.	= 454 grams
